

HandTorque® HT4 Series Overview

- Robust construction means minimal maintenance and long life
- True 15.5:1 (3000 Nm) or 26:1 (4500 Nm) torque multiplication, accuracy $\pm 4\%$
- High ratios allow the use of a small torque wrench
- Supplied in carrying case with replacement square drive
- Anti Wind-Up Ratchet fitted to allow safer and more practical operation
- Angle protractor for easy torque and angle tightening
